Ordered,

That the said Report be made immediately :

Whereupon Mr. *Ogden* read the said Essay in his Place, and delivered it in at the Table ; and the said Essay being again read, was approved by the House, and is as follows :

To the UNITED STATES in CONGRESS ASSEMBLED.

*The REPRESENTATION of the LEGISLATIVE-COUNCIL and GENERAL ASSEMBLY
of the State of NEW-JERSEY,*

Sheweth,

THAT we are fully convinced the Circumstances of the Times render a further Provision for the Subsistence and Comfort of the Army of the United States indispensably necessary, but are of Opinion the Mode adopting to effect this Purpose is very improper, and will be productive of injurious Consequences : The several States are each forming a separate Plan of supplying to their own Troops such Necessaries as they think most adviseable, nearly at Prices current when the Army was established, and stipulating in their Favour such other Privileges and Advantages as may in a considerable Degree make good the Contract under which they entered the Service at the Commencement of the War. These Regulations, various, unequally advantageous, and formed upon different Principles, must, in their Practice and Operation, produce Discontents, Murmurings, and perhaps still worse Effects—Resignations among the Officers, and Desertions among the Men.

Further, while each State thus supports a System of its own, the whole Expence is greatly and unnecessarily increased ; for although it be paid by the State separately, and not out of the Continental Treasury, it is still a general Expence, and the Wages which each State must pay on purchasing for, and issuing to, their respective Troops, would be Double or Treble their Proportion of the Sum which would procure the Whole purchased and issued to the Army at large. If a Provision were made by Congress, we would also suggest the exceeding Difficulty under which this State must labour in carrying their Part of this divided Mode of Supply into Execution. The Means of Importation are not in our Power, and Purchases on the Continent must be made at a Distance, and under every other Disadvantage. To the Congress these Things would be more practicable in many Cases, only a great Quantity of the same Articles would be necessary, and they might be procured in the same Line in which the Army is now supplied. Every Expence which may be necessary for the Comfort and Supply of those who devote themselves to the publick Service, we are cheerfully willing, to the utmost of our Proportion, to defray ; but mean not to recommend or even approve in the slightest Degree any Kind of Establishment, or particular Emolument for Life. These, to say Nothing more, were no Part of the original Contract : They cannot be demanded or hoped for on any equitable Principles.

By a Resolution of Congress of the 15th of *March* last, all Officers, Non-commissioned Officers and Soldiers, now belonging to the Corps of Light-Dragoons and Artillery, and Infantry, and the Corps of Artillery Artificers already commissioned and enlisted, not being Part of the Eighty-eight Battalions, are to be considered as Parts of the Quotas of the several States to which they belonged, or may belong when commissioned or enlisted, and credited accordingly : Part of two Regiments of Horse, one now in the Eastern States, the other in *Pennsylvania* ; two Companies of Artillery at separate Parts ; Part of two of the Sixteen Additional Regiments now on different Stations, besides Artillery Artificers now employed at different Places, were commissioned or enlisted from this State. If we are credited with these, it will by them be expected that we provide for them ; if it is not done, the Officers will resign, and the Privates desert ; and to do it, seems absolutely impracticable upon any particular State System ; and even supposing it possible, the Transportation and Wages which must be given for procuring it, done at so many different Parts, would be out of all usual Proportion to the Value of the Articles supplied. For the above Reasons, with many others, with which we think it unnecessary to detain Congress, we earnestly entreat that they would adopt a Mode of making such further Provision for the Army as they may think just and adequate ; a Mode which by comprehending the Whole, will remove all Danger of partial Distinction, which will be less difficult and less expensive than the Mode excepted against, and which will produce that Satisfaction without which the

Service can never be generally agreeable to those engaged in it, or fully beneficial to the Nation.

The Memorial of *William Alexander*, Earl of *Stirling*, setting forth, that several Parts of his Real Estate were, at the Commencement of the War, mortgaged for Debts due to Persons who have since joined the Enemy; that several other Parts were, and still are mortgaged to Persons residing in this State, and the State of *New-York*; and praying that the Legislature of this State will give him Leave to bring in a Bill for vesting the Whole of his Real Estate, in *New-Jersey*, in two or more Trustees, and enabling them to sell the same, or a sufficient Part thereof for the Discharge of his Debts, &c. which was read, and ordered a second Reading.

‘ That the Settlement of the Accounts of such as are under the Necessity of marching immediately, be postponed for the present, and that the said *Enos Kelsey* pay to them the said *Two Hundred Pounds* each, on Account of Clothing, reserving such Settlement to a future Occasion.

‘ And whereas by a Resolution of the 23d of *April* last, the Troops of this State are to be furnished with certain Articles for their more comfortable Subsistence, which cannot be immediately procured and issued; therefore,

‘ *Resolved,*

‘ That there be paid to each Non-commissioned Officer and Private, belonging to the said Brigade, the Sum of *Forty Dollars*, to be accounted for when the Articles in the said Resolution mentioned are provided and forwarded to the said Brigade; and that the said *Enos Kelsey* employ a proper Person to pay to each commissioned Officer and Private, out of any Monies which may remain in the said *Enos Kelsey*'s Hands, the afore-said Sum, and take his Receipt for the same.

That Mr. *Clark* do wait on the House of Assembly, and in Answer to the said Message inform them, that the Bill for the Relief and Support of maimed and disabled Officers and Soldiers, sent by the Assembly to this House last Sitting for Concurrence, would, in the Opinion of the Council, be attended with great and unnecessary Expence in its Execution, by drawing from the Treasury for the Pay of a large Board of Commissioners, a Sum nearly adequate to the probable Amount of the Relief to be granted, and in many other Respects the said Bill appeared to be inadequate to the Purpose intended: Council deeply impressed with the Necessity of providing for the unhappy Sufferers, and desirous of affording all needful Relief in a Way beneficial to the distressed, and yet without unnecessary Expence to the State, accordingly amended and sent back the said Bill to the Assembly for Concurrence, who returned the same, rejecting the Amendments, and adhering to the Bill; which Bill so adhered to, for the Reason which occasioned the Amendments, was, in Justice to all concerned, rejected by this House.

Mr. *Harris*, from the Committee of Conference appointed on the 26th Day of *April* last, reported the Draught of a Representation to Congress, in the following Terms:

To the UNITED STATES in CONGRESS ASSEMBLED:

The REPRESENTATION and PETITION of the LEGISLATIVE-COUNCIL and GENERAL ASSEMBLY of the State of NEW-JERSEY,

Sheweth,

THAT, by a Resolution of Congress of the 9th of *March* last, the Infantry of the United States is directed to be composed for the ensuing Campaign, of Eighty Battalions.—That the several States are therein required to make up and compleat their respective Battalions to their full Complement by Draughts, or in such other Manner as they may think proper; and that they have their Quotas of Deficiencies ready to take the Field, and to march to such Place as the Commander in Chief shall direct without Delay.

That, by a Resolution passed in the Month of *December*, 1777, it is recommended to the several States to supply the Officers of their respective Troops with sundry Articles of Clothing at certain Rates.

That the Legislature of this State are taking the necessary Measures to comply with the Requisition above-mentioned; and have already in Part furnished Clothing to the Officers of the Regiments belonging to the Brigade of the State, as recommended; but that they find themselves greatly at a Loss from any Communications made to them by Congress, to ascertain precisely what is intended by their Quota of Troops in the Service of the United States.

For that, by a Resolution of Congress respecting the Legion raised by the Count *Polaski*, such Recruits as have been or may be enlisted in the same in this State, are to be credited to the Quota thereof; and by another Resolution of the 15th of *March* last, all Officers and Soldiers now belonging to the Corps of Light-Dragoons and Artillery and Infantry, and the Corps of Artillery Artificers, not being Part of the Eighty-eight (now Eighty) Battalions apportioned to this State, be considered as Part of the Quotas of the several States to which they belonged, when commissioned or enlisted.

It is therefore the Desire and Petition, that Congress will order the necessary Information in what Manner the Credit above-mentioned is to be made: Whether they are to look upon the Parts of the Corps mentioned in the above Resolutions, which have been raised in this State, or any particular Kind of them, as to be reckoned in compleating their three Regiments of Infantry to the Establishment of *May*, 27th, 1778; and also, that the Returns directed by the Resolution of the 15th of *March* last, none of which,

from one or two Regiments excepted, they have yet received, be made as early as the Nature of the Case will possibly admit, inasmuch as at the present Season of the Year the Legislature cannot long continue Sitting: And further, would request that Congress will pay the earliest Attention to the Representation lately made in Behalf of this State, on the Subject of providing for the better Subsistence of the Army, which they cannot but consider as a Matter of the highest Moment, not only to this State, but to the Union in general.

By Order of the Council,

WIL. LIVINGSTON, *President.*

By Order of the General Assembly,

Trenton, May 19, 1779.

CALEB CAMP, *Speaker.*

Mr. *Harris* also reported, that in Consideration of the Necessity of having an early Return on the Subject of the Representation to be sent, it will be proper that a Member from each House be appointed to proceed to Congress with the said Representation; whereupon, on the Question, Whether the House agree to the said Report? It was carried in the Affirmative.

Whereupon the House proceeded to the Choice of a Member of this House, to join with a Member appointed by the House of Assembly, to wait on the Honourable the Congress, with the said Representation and Petition, when the Honourable *Silas Condict*, Esquire, was chosen and appointed for that Purpose.

 ‘ Whereas it frequently happens that Officers and Privates of the Militia of this State, employed on Detachments and Enterprizes, where there is no regular and appointed Means of Relief, are subjected, by accidental Hurts and Wounds, to much Expence, which it is unreasonable they, as Individuals, should sustain ;

‘ *Resolved*,

‘ That the Treasurer of this State be directed to remove, as soon as conveniently may be, the Treasury Chest, with the Books and Papers thereunto belonging, for the better Security thereof, to be kept in Future either at *Trenton*, *Princeton*, *Bordentown* or *Burlington*, at the election of the Treasurer, until otherwise ordered by the Legislature, unless an Incurion or Approach of the Enemy render its farther Removal necessary.

‘ And whereas it is essentially necessary that proper Measures be devised both to do Justice to the Community, by punishing and preventing, as far as possible, every Practice which has a Tendency to encrease the publick Burdens; and also to rescue the faithful Servants of the publick from that indiscriminating Censure which the bad and unworthy bring upon all.

‘ And whereas no adequate Means have hitherto been adopted for examining into and ascertaining Charges made against Delinquents of the above Description, there being no ready and available Mode of collecting Evidence, and laying the same before proper Authority, when the accused may be heard and punished or acquitted, as his Conduct on proper Examination may be found to deserve,

To the UNITED STATES in CONGRESS ASSEMBLED.

The REPRESENTATION of the LEGISLATIVE-COUNCIL and GENERAL ASSEMBLY of the State of NEW-JERSEY, on Behalf of the said State, Sheweth,

THAT amidst the promising Prospects of an happy Issue of the present War, and of the Establishment of the glorious Freedom and Independence of these United States, we feel the most painful Anxieties from the State of the Continental Finances, which threatens not only Embarrassment, but Ruin to the publick Measures.

In a Crisis so alarming, it becomes Freemen not to consume their Time in unavailing Murmurings and Complaints, but to interest themselves in devising Means to remedy the Grievance, and, if possible, avert the impending Mischief. We do not mean to detain Congress upon the Causes to which the great and growing Depreciation of our Paper Currency is to be ascribed, but to express our Sense of the Necessity of immediately adopting Measures to check the increasing Evil, and for restoring and rendering permanent the publick Credit.

If we calculate for a Year to come from the Events of a few Months past, the Increase of Prices and publick Debts must appear truly alarming ; the latter perhaps will exceed the Reach of common Computation, and the former rise to the utter Destruction of our Paper Currency. The Money ceasing to circulate, and perishing in the Hands of the unfortunate Possessors, all Business must necessarily stagnate for Want of a circulating Medium, and the inevitable Ruin of Multitudes, if not of these United States, take Place.

To avoid Evils so truly deplorable, we conceive that every possible Exertion ought to be made, and that Nothing short of a Regulation of Prices, generally adopted, and effectually carried into Execution, will prove sufficient.

As to the Impracticability of this Measure, so much urged by Speculators, Monopolizers and others, whose Minds are vitiated and poisoned by similar Views of unreasonable Gain, and those who wish to ruin our Money in order to conquer us in that Way, it has not the smallest Degree of Weight with us, because we are very clear that it does not exist. If the Measure is practicable in one State it is also in another, and of Course may be carried through the Union ; and that it is practicable in one State we are sure, because it has been adopted and carried into Execution in the State we have the Honour to represent. And indeed we most sincerely lament the Part some of the other States acted on this very interesting and important Occasion. Had they come into the Regulation when this State did, and persevered in it as faithfully as this State would have done, our Affairs would probably have worn a very different Aspect from what they now do, and the Debt with which we are saddled, not have arisen to the enormous Sum which now appears.

If then all other Measures however wise and salutary, will prove insufficient to work the Salvation of our Currency, without a Regulation of Prices to compel the disaffected and avaricious to conform to what is equitable and consistent with the publick Safety ; and if this Regulation, in order to answer the End proposed should be general and uniform ; we conceive that it ought to originate with Congress, and be thence diffused through the Union. Was it to take its Rise in any other Quarter, its being either general or uniform could hardly be expected. If your Honourable Body take the Matter up, and form a general System or Plan of Regulation, and recommend it to the several States, in Terms as forcible as the Necessity of the Case will bear, we have the most pleasing Apprehensions that it will, without Delay, take Place in the fullest and amplest Manner.

It is impossible indeed for us to entertain so unfavourable an Opinion of the Justice or publick Virtue of our Sister-States, as to doubt their Compliance. For although artful designing Men may raise plausible Objections against any Measure, however wise or essential to the publick Safety it may be, and indeed are accustomed so to do, whenever a Measure is proposed that happens to thwart their or their Connections Views of Interest or Ambition ; yet the Necessity of this we now propose is so obvious, and exceedingly pressing, that if Congress should put it in the Line of Success we have mentioned, we think no State, or even Individual, not greatly deficient in publick Virtue and common Honesty, can think of opposing.

It

It may however be objected, in order to prevent its being taken up, that as several of the States refused, or rather declined, to regulate under a former Recommendation of Congress, it is not to be supposed that they will now come into the Measure. But this Objection we presume will appear to have but very little Weight when it is considered, that at the Time when that Recommendation went forth, the Necessity of a Regulation did not appear one thousandth Part as evident and pressing as it now does. Multitudes who were then strenuously opposed to the Measure, are now as anxious to see it take Place. They are convinced that Taxation, during the Continuance of the War, without a Regulation of Prices, will not have any sensible Effect for remedying the Evils we complain of.

Every Vender, say they, will raise upon the Articles he has for Sale, in order the better to enable him to pay his Tax; and thus Prices will go on rising, our Money depreciating, and our Debt increasing, until we become a ruined and a wretched People.

With Regard to the Mode of regulating, we would beg Leave to observe, that if Prices should be fixed at any certain Standard, not to descend, we fear it will answer no very valuable Purpose.

Those who would wish to break through the Regulation, will only need to withhold what they have for Sale, and the Business will be done; the Scarcity will soon compel the Publick to yield to their Avarice. Nor will they run any Risque of Loss in withholding; the Chance will be altogether in their Favour. But if Prices are reduced by moderate and regular Gradations, and at certain short Periods, the Case will be different; this will operate like a falling Market, it will induce People to exhibit to Sale whatever they may have to spare, in order to avoid the Loss that must necessarily attend a contrary Conduct, and perhaps to take less than even the regulated Prices, thereby to quicken the Sale of their Goods. Thus will many Articles become plenty that now appear scarce; our Money will daily appreciate, and our Expences diminish, until the publick Credit is again restored, and our Affairs fixed upon a safe and permanent Footing. Farmers, and every other Order of Men will exert themselves to get Something to sell, because they will expect to receive Something for it of Value.

Having thus set forth some of our Ideas and Apprehensions respecting the present State of our Money, and what we conceive is further to be expected, unless Something spirited is done to check the Current of Depreciation; we shall now conclude, with intreating Congress once more to take the Matter up, and use their utmost Endeavours to set on Foot, and extend through the Union, a general Regulation of Prices.

To the Honourable the LEGISLATURE of the State of

GENTLEMEN,

THE Legislative-Council and General Assembly of the State of *New-Jersey*, beg Leave to congratulate you on being so far advanced in the fourth Year of our Independence; on the many Successes of the present Campaign; and the glorious Prospect we now have of putting a speedy and happy End to the present distressing and unnatural War, and of settling our Liberty and Independence on a firm and lasting Basis. Nothing seems to be now wanting to effect this but Virtue among ourselves. We are sorry to be obliged to observe, that amongst all these flattering Prospects, Ruin seems be rushing in upon us from another, from a once unsuspected Quarter.

The amazing Depreciation of the Continental Money for a Year past is truly astonishing, and threatens us with inevitable Destruction, if a speedy Stop be not put to its rapid Progress; for it is a Truth too self-evident for Infidelity itself to doubt, that if the Depreciation should continue in the same Proportion but a little longer, our National Debt will exceed all Computation, and what is perhaps yet worse, the Money will cease to circulate, and our Army must either be disbanded, or reduced to the Necessity of carving out their own Subsistence: In either Case Consequences must ensue, which make us shudder but to think of.

Many are the Schemes proposed for preventing so fatal a Catastrophe. Publick Loans, Taxation, and a general Regulation and Limitation of Prices, we look upon as the most likely to have the desired Effect. Loans may prove a useful temporary Expedient to supply the present Exigences; Taxation in its Nature slow, and its Effects require Time to be sufficiently felt; in Aid of which we would therefore propose a general Regulation and Limitation of the Prices to be taken for every Kind and Article of Labour, Manufacture and Trade, either by ascertaining the Number of Prices current at some past Period, to

be

be a Standard for the Future, or for particularizing at what Rates the most material and necessary Articles of Life shall be sold; and also the Profits to be made on all Articles imported. This we conceive to be the only immediate and safe Method of stopping that Torrent which threatens shortly to overwhelm us. Many and great Struggles have, at different Times, been made in various Parts of the Union to effect this desirable Purpose; all of which being partial, have fallen short of the End proposed, which we conceive they must ever do, unless the Matter becomes general throughout the States; to accomplish which we have represented the Utility, the Urgency, and even the Necessity of the Measure, to Congress; requesting them to adopt and recommend to the several States they represent, some general and equitable Plan for that Purpose, hoping that if you see the Matter in the same Light in which we view it, you will join with us in a similar Representation; and that you will communicate to the Legislature of this State, your Sense and Determination on so important and interesting a Subject; and likewise any Plan which you may have adopted, or shall adopt for so salutary a Purpose.

If an Application to Congress should not appear to you eligible, or when made, should not have the desired Effect, we stand ready to join in any other Measure which may be adequate to the End proposed.

We wish you to communicate to us, as soon as possible, your Sentiments, and may expect at all Times to find the same Readiness in

And whereas it is represented to the Legislature that some Persons, encouraged by the said Proclamation, have lately, in attempting to apprehend the said *Fenton*, been under a Necessity of killing him, by which Means the Conviction of the said *Fenton*, agreeable to the Tenor of the said Act, is become impracticable, and the Reward cannot be paid without the Concurrence of the Legislature; therefore,

Mr. *Townsend* and Mr. *P. Schenck*, from the House of Assembly, presented, for the Concurrence of this House, a Bill, intituled, *An Act for defraying sundry Incidental Charges*; which was read, and ordered a second Reading.

A Message was received from the House of Assembly by Mr. *Shreve* and Mr. *J. Schenck*, in the Words following :

‘ **T**HE House of Assembly having taken into Consideration the Message from the Council of the second of *October*, by Mr. *Condict*, respecting a certain Instrument of Writing, purporting to be a Charter of Incorporation of the *First-day Baptist Church* in the Township of *Hopewell*, in the County of *Cumberland*, and the Resolution accompanying the same,

‘ *Resolved unanimously,*

‘ That this House cannot concur in the said Resolution for the following Reasons :

‘ 1st. Because it does not appear from the Minutes of the House of Assembly of *March* 1778, or at any Time within that Year, that any Application was made, or any Petition presented by any of the Inhabitants of the County of *Cumberland*, for a Charter for certain Privileges to be granted to the *First-day Baptist Church* in *Hopewell*, in the said County,

‘ as stated in the Preamble to the said Resolution of Council, much less that there was ever
 ‘ any Doubt in the House of Assembly whether the Power of granting Charters was vested
 ‘ in the Legislative or Executive Authority, as seems sufficiently evident from an Extract
 ‘ from the Minutes of the House of the second of *October* 1777, unaccountably omitted in
 ‘ the printed Journals, but copied *verbatim* from the Original, as follows :

‘ A Petition was presented from the *First-day Baptist Society* in *Hopewell*, in the County
 ‘ of *Cumberland*, praying, for Reasons therein set forth, a Law for Incorporation of the said
 ‘ Society ; which was read ; on the Question,

‘ *Ordered*,

‘ That the Petitioners have Leave to bring in a Bill for that Purpose.

‘ 2d. Because the Words in the Preamble to the said Resolution, *videlicet*, “ And the
 ‘ present Legislature having maturely considered the Constitution and Origin of the present
 ‘ Government, are rather of Opinion that the Right and Power of granting Charters is
 ‘ vested in, and of Consequence must ever remain with the Representatives of the People,”
 ‘ seem to imply Uncertainty and Doubt on that Subject, whereas this House is clearly of
 ‘ Opinion that the Right and Power of granting Charters is unquestionably vested in the
 ‘ Representatives of the People.

‘ 3d. Because this House is not conscious of any Impropriety in their Undertaking to
 ‘ determine the Matter in Question at this Time, as whatever may have been the Case
 ‘ in Council ; the House of Assembly was by no Means thin when the Resolutions of the
 ‘ 29th of *September* last was sent from this House to the Council for their Concurrence,
 ‘ there being at that Time more than thirty Members present.

‘ And lastly. Because there does not appear to this House the least Necessity of recom-
 ‘ mending the Consideration of a Matter to the next Legislature, which may, without Im-
 ‘ propriety, be determined this Time.

‘ *Ordered*,

‘ That Mr. *Shreve* and Mr. *J. Schenck* do carry the said Resolution to the Council, and
 ‘ acquaint them therewith.’

The House adjourned till Three o’Clock in the Afternoon.

The House met pursuant to Adjournment.

A Message was received from the House of Assembly by Mr. *Clark* and Mr. *Kirkpatrick*,

‘ **T**HAT Mr. *Clark* and Mr. *Kirkpatrick* do wait on the Council with the Representa-
 ‘ tion to Congress, and acquaint them that this House do recede from the Amend-
 ‘ ments made thereto by this House, and disagreed to by the Council ; that Mr. *Sebring*,

 ‘ Conference on the Amendments made by this House to the Letter to the neighbouring
 ‘ States, and disagreed to by Council ; and that they be requested to appoint a Committee
 ‘ for that Purpose, with the Time and Place of Meeting.’

 of Assembly in free Conference for the Purpose mentioned in the said Message ; and that the
